"100 Facts for Differences between Human Races"

Pfannie Lovelace

In this article are 100 facts, the vast majority of which can be easily verified in any set of encyclopedias, almanacs, psychology text, and other reference materials commonly found in any public library.

Cleverly hidden within these hundred facts, for added incentive to read onward, is one lie... - not a lie of statistical or grammatical error, but a ludicrous falsehood at once so absurd as to strike the reader as an insult to human intelligence, and yet so deadly evil that if allowed to go unanswered its final cost would be incalculable. I sincerely pledge that my motivations are not of insult or hatred, but of the deepest love for mankind and the truest concern for its future generations. my purpose is not to deceive but to enlighten, and I hope this work will help you reflect and reexamine your views on race.

Senator Bilbo's Warning: "If our buildings, our highways, and our railroads should be wrecked, we could rebuild them. If our cities should be destroyed, out of the very ruins we could erect newer and greater ones. Even if our armed might should be crushed, we could rear sons who would redeem our power. But if the blood of our White race should become corrupted and mingled with the blood of Africa, then the present greatness of the of Europe, North America and Australia / New Zealand would be destroyed and all hope for civilization would be as impossible for a Negroid America as would be redemption and restoration of the Whiteman's blood which had been mixed with that of the Negro." (Senator Theodore G. Bilbo, of Mississippi in 1947)

FACT #1: The White race has crossed seas, harnessed rivers, carved mountains, tamed deserts, and colonized the most barren icefields. It has been responsible for the invention of the printing press, cement, the harnessing of electricity, flight, rocketry, astronomy, the telescope, space travel, firearms, the transistor, radio, television, the telephone, the lightbulb, photography, motion pictures, the phonograph, the electric battery, the automobile, the steam engine, railroad transportation, the microscope, computers, and millions of other technological miracles. It has discovered countless medical advances, incredible

applications, scientific progress, etc. Its members have included such greats as Socrates, Aristotle, Plato, Homer, Tacitus, Julius Caesar, Napoléon, William the Conqueror, Marco Polo, Washington, Jefferson, Hitler, Bach, Beethoven, Mozart, Magellan, Columbus, Cabot, Edison, Graham Bell, Pasteur, Leeuwenhoek, Mendel, Darwin, Newton, Galileo, Watt, Ford, Luther, Da Vinci, Poe, Tennyson, and thousands upon thousands of other notable achievers. (37) (39)

FACT #2: Throughout 6000 years of recorded history, the Black African Negro has invented nothing. Not a written language, weaved cloth, a calendar, a plow, a road, a bridge, a railway, a ship, a system of measurement, or even the wheel. (Note: This is in reference to the pure-blooded Negro.) He is not known to have ever cultivated a single crop or domesticated a single animal for his own use (although many powerful and docile beasts abounded around him). His only known means of transporting goods was on the top of his hard burly head. For shelter he never progressed beyond the common mud hut, the construction of which a beaver or muskrat is capable. (21) (39)

Intelligence

FACT #3: The I.Q.'s of American Negroes are from 15-to-20 points, on average, below those of American Whites. (26) (16) (18) (22)

FACT #4: These Black/White differences have been demonstrated repeatedly by every test ever conducted by every branch of the U.S. Military, every state, county, and local school board, the U.S. Dept. of Education, etc. The same ratio of difference has held true over a 40 year period. (18) (26) (24)

FACT #5: With an average I.Q. of 85, only 16% of Blacks score over 100, while half the White population does. The Negro overlap of White median I.Q.'s ranges from 10%-to-25% - equality would require 50%. (31) (27) (16)

FACT #6: Blacks are 6 times as likely to have I.Q.'s of 50 to 70 which put them in the slow learner (retarded) category, while Whites are ten times more likely to score 130 or over. (15) (16) (18) (23)

FACT #7: The U.S. government's PACE examination, given to 100,000 university graduates who are prospective professional or administrative civil-service employees each year, is passed with a score of 70 or above by 58% of the Whites who take it but by only 12% of the Negroes. Among top scorers the difference between Negro and White performance is even more striking: 16% of the White applicants make scores of 90 or above, while only one-fifth of one percent of a Negro applicants score as high as 90 - a White/Black success ration of 80/1. (27)

FACT #8: Differences between Negro and White children increase with chronological age, the gap in performance being largest at the high school and college levels. (31) (26)

FACT #9: White/Negro I.Q. differences are constantly excused as results of environmental variations. but at least five studies that have

attempted to equate socio-economic backgrounds of the two races indicate no significant change in relative results. As environment improves, the Negro does better but so does the White. The gap is not decreased. (26) In fact, extensive research by Dr. G.J. McGurk, associate Professor of Psychology at Villanova University, reveals that the gap in intelligence between Blacks and Whites INCREASES where socio-economic levels of both races are raised to the middle classes. (18)

FACT #10: In 1915, Dr. G.W. Fergusson took 1000 school children in Virginia, divided them into five racial categories, and tested them for mental aptitude. On average, full-blooded Negroes scored 69.2% as high as Whites. Three-quarter Negroes scored 73.0% as high as Whites. One-half Negroes scored 81.2% as high as Whites. One-quarter Negroes scored 91.8% as high as Whites. All of these Blacks lived as and considered themselves "Negroes." Their environments and "advantages" or disadvantages were exactly the same. (14)

FACT #11: Results of the Army Beta test given by the U.S. Army to over 386,000 illiterate soldiers in WWI showed Negro draftees to be "inferior to the Whites on all types of tests used in the Army." Additionally, tests were conducted upon pure Negroes, Mulattoes, and Quadroons. It was found that "the lighter groups made better scores." (14)

FACT #12: Studies conducted with identical twins raised apart in radically different environments provide conclusive evidence that over-all influence of heredity exceeds that of environment in a ratio of about 3 to 1. (41)

FACT #13: Even when Blacks and Whites have the same backgrounds, in terms of family income and childhood advantages, Blacks still have average I.Q. scores 12-to-15 points lower than comparable Whites. This includes cases where Black children have been adopted by White parents. Their I.Q.s may be improved by environment, but they are still closer to their biological parents than their adoptive parents. (3) (15) (26)

FACT #14: Equalitarian ideologists often discount I.Q. test results with the excuse that they are culturally biased. Nonetheless, NO ONE, not the NAACP nor the United Negro College Fund, nor NEA had been able to develop an intelligence test which shows Blacks and Whites scoring equally. (15) (42) (3)

FACT #15: American Indians, who often live in conditions far worse than American Blacks during their entire lives, still consistently outscore them on I.Q. tests. (3) (27)

FACT #16: The offspring of interracial marriages tend to have lower I.Q.s than the white parent. (11) (26)

The Negro Brain

FACT #17: Among human races numerous studies have been made of the comparative weight of White and Negro brains with results that fell within the range of about an 8-12% lower weight for the Negro brain. Such studies have been conducted

by Bean, Pearl, Vint, Tilney, Gordon, Todd, and others. (23) (27)

FACT #18: In addition to the difference in brain weight, the Negro brain grows less after puberty than the White. Though the Negro brain and nervous system mature faster than the white brain, its development is arrested at an earlier age which limits further intellectual advancement. (22) (27)

FACT #19: The thickness of the supragranular layer (the outside layer) of the Negro brain is about 15% thinner, and its convolutions are fewer and more simple, on average, than that of the White brain. (9)

FACT #20: The frontal lobes of the Negro brain, responsible for abstract conceptional reasoning, are smaller relative to body weight, less fissured, and less complex than those of the White brain. (9) (27) (23) (22)

Anthropology

FACT #21: The name *Homo sapiens* was first used by the 18th Century Swedish botanist Carolus Linnaeus. The word "sapiens" means "wise." The name was originally used to speak of the White man and synonymous with "europaeus." As a result, many later taxonomists and geneticists believed that Negroes and other races should be classified as different species. In fact, Darwin declared in *The Descent of Man* that the varieties of mankind are so distinct that similar differences found in any other animal would warrant their classification in different species, if not different genera. (39)

FACT #22: For his mammoth work, *The Origin of Races*, Professor Carleton Coon, President of the American Association of Physical Anthropologists and the premier geneticist of the world, assembled massive evidence from geography, anatomy, genetics, physiology, comparative dentition, linguistics, archeology, and fossil records from 300 bone-bearing sites to verify his theory of pre-sapiens racianation." In other words, *Homo erectus* was divided by race even before evolution into *Homo sapiens* stage. (12)

FACT #23: According to Dr. Coon, while the Caucasoid subspecies (the White race) was evolving in Europe, the Negro race was standing still on the evolutionary plane and is today no less than 200,000 years behind the European in skull and brain development. (9)

FACT #24: The Negro skull, in addition to having a smaller brain volume and thicker cranial bones than that of the White, is prognathous; i.e., the lower face projects forward, rather in the manner of an animal's muzzle. In consequence, the Negro jaw is substantially longer, relative to its width, than the White jaw. A feature of the Negro lower jaw is its retention of a vestige of the "simian shelf," a bony region immediately behind the incisors. The simian shelf is a distinguishing characteristic of apes, and it is absent in Whites. (9) (12) (39)

FACT #25: The skin of the Negro is thicker and possibly superior to the White's in the way it impedes the penetration of germs and in its protection from the ultraviolet rays of the sun. (39) (14)

FACT #26: The dark color of the Negro is due to melanin pigment which is spread through every layer of the skin and is found even in the muscles and brain. (9) (27)

FACT #27: An African dentist can tell a Negro's tooth from a white man's at a glance. (14)

FACT #28: Negroes have arms which are longer, relative to body height, than those of Whites. This feature, together with their much thicker cranial bones, gives Black athletes an advantage over Whites in boxing. The skeletal and muscular peculiarities of Negroes' lower limbs have given them considerable success as sprinters, but have left them relative undistinguished as distance runners. (39) (27)

FACT #29: Additional Differences

The hair is black, crispy, and "woolly" in texture, it is flat and elliptical with no central canal or duct like the hair of Europeans.

The nose is thick, broad and flat, often turned up nostrils exposing the red inner lining of the mucous membrane similar to an ape.

The arms and legs of the Negro are relatively longer than the European. The humerus is a trifle shorter and the forearm longer thereby approximating the simian form.

The eyes are prominent, iris black and the orbits large. The eye often has a yellowish sclerotic coat over it like that of a gorilla.

The Negro has a shorter trunk the cross-section of the chest is more circular than Whites. The pelvis is narrower and longer as it is in an ape.

The mouth is wide with very thick, large and protruding lips.

Negro skin has a thick superficial horny layer which resists scratching and impedes the penetration of germs.

The Negro has a larger and shorter neck akin to that of anthropoids.

The cranial sutures are more simple than in the white type and close together earlier.

The ears are roundish, rather small, standing somewhat high and detached thus approaching the simian form.

The Negro is more powerfully developed from the pelvis down and the White more powerfully developed in the chest.

The jaw is larger and stronger and protrudes outward which, along with lower retreating forehead, gives a facial angle of 68-to-70 degrees as opposed to a facial angle of 80 to 82 degrees for Europeans.

The hands and fingers are proportionally narrower and longer. The wrist and ankles are shorter and more robust.

The frontal and parietal bones of the cranium are less excavated and less capacious. The skull is thicker especially on the sides.

The brain of the Negro on the average is 9-to-20% smaller than Whites.

The teeth are larger and are wider apart than in the White race.

The three curvatures of the spine are less pronounced in the Negro than in the white and thus more characteristic of an ape.

The femur of the Negro is less oblique, the tibia (shin bone) more curved and bent forward, the calf of the leg high and but little developed.

The heel is broad and projecting, the foot long and broad but slightly arched causing flat soles, the great toe is shorter than in the White.

The two bones proper of the nose are occasionally united, as in apes.

FACT #30: Blood group studies made during WWII suggest the American Negro gene pool is about 28% White. This despite all manner of

institutional discrimination, social segregation, etc. Keep in mind that the results of test from true Black Africans would show even bigger differences from Whites. (32) (14)

Crime

FACT #31: The rate at which Blacks commit murder is thirteen times that of Whites; rape and assault, ten times. These figures, as given by the F.B.I. reports, vary somewhat from year-to-year but fairly represent the trend for the past decade. (27) (6) (13)

FACT #32: According to the justice Dept, 1 in every 4 Black males between the ages of 20-and-29 is currently in prison or on probation or parole. (32) (6) (3)

FACT #33: Though only 12% of the U.S. population, Blacks commit more than half of all rapes and robberies and 60% of all murders in the U.S. (32) (27) (6)

FACT #34: Approximately 50% of all Black males will be arrested and charged with a serious felony during their lifetime. (27)

FACT #35: A Black person is 56 TIMES more likely to attack a White person than vice-versa. (3) (32)

FACT #36: Black rapists choose White victims over half (54.9%) of the time, 30X as often as Whites choose Blacks. (2) (32) (28)

FACT #37: The annual report from the Department of justice shows that when Whites commit violence they do it to Blacks 2.4% of the time. Blacks, on the other hand, choose White victims MORE THAN HALF the time. (3)

FACT #38: In New York City, any White is over 300 TIMES MORE LIKELY to be assaulted by a gang of Blacks than is a Black by a gang of Whites. (32)

FACT #39: Many people argue that high Black incarceration rates show that police center enforcement at Black crimes and ignore white-collar crimes. However, Blacks commit a disproportionate number of white-collar offenses as well. In 1990, Blacks were nearly 3 times as likely to be arrested for forgery, counterfeiting, and embezzlement as Whites. (32) (6)

FACT #40: Many people believe that crime is a product of poverty and lack of "advantages." However, the District of Columbia, which enjoys the highest average annual salaries and is second only to Alaska in personal income *per capita*, leads the nation in just about every category of crime including murder, robbery, aggravated assault, and vehicle theft. D.C. also has the country's strictest gun control, highest police costs per capita, highest ratio of police and correctional officers per citizen, and highest rate of incarceration. Its permanent population is over 80% Black. West Virginia, which has the nation's lowest crime rate, suffers from chronic poverty and has the highest unemployment in the U.S. It also has the fewest police *per capita*. West Virginia is over 96% White. (33)

The Black Family

FACT #41: 46% of inner city Black men between the ages of 16-and-62 are unemployed. (27)

FACT #42: More than 66% of the children of Negroes are born out of wedlock. *Per capita*, their illegitimacy rate is ten times that of Whites. (32) (27)

FACT #43: Blacks are four and a half times more likely than Whites to be on welfare. (32)

FACT #44: More than 35% of all Black men in U.S. Cities are drug or alcohol abusers. (27)

Beauty

FACT #45: The January 1986 issue of the journal of Ethnic and Racial Studies, "*Skin Color Preference, Sexual Dimorphism and Sexual Selection: a case of Gene-Culture Co-evolution?*" by Peter Frost and Pierre Van der Herghe, stated that in any given race, the women tend to have lighter complexions than the men. Using standard ethnographic files from 51 societies on five continents which have recorded their preference for human skin color, the study found that 30 preferred lighter women and 14 preferred lighter women and lighter men. The cultures of India, China, Brazil and Bali, as well as the Arabs and Negroes regard the lightest women as the most beautiful - perpetuating the aesthetic appeal of the ivory-skinned, rosy-cheeked, blue-eyed, blond "**Nordic ideal**" of feminine beauty - even though they themselves do not possess the genetic capacity to reproduce such an organism. Over time, the study said, the upper classes of all races have become lighter-skinned than their fellow countrymen because they have repeatedly skimmed off fairer women from the lower classes. (11)

FACT #46: Scientific research on what constitutes human beauty, in which 300 judges of various backgrounds were shown portrait photographs and asked to rate the beauty of the individual's face, has revealed that Nordic Whites are universally recognized as the most attractive humans, even by Blacks. The judges were instructed to evaluate the faces solely on his or her "personal standards of beauty and not to consider popular norms." The results of the study "*Age, Sex, Race, and the Perception of Facial Beauty*." Developmental Psychology, 5, Nov., 1971, pp 433-439.

FACT #47: In experiments in which Black children have been left to themselves with White and Black dolls, it has been found that most of the them would rather play with White dolls. This is true all over the world. Even in such places as Tobago. (32) (22) (23)

American History

FACT #48: The **American Declaration of Independence**, which contains the oft-repeated phrase "all men are created equal" was written by Thomas Jefferson, who owned about 200 slaves at the time and never set any of them free, including the mulattoes and quadroons. Jefferson's words certainly had no reference to Negroes, who at that time had no place in American society except as property. (27) (38) (31)

See Note: Hidden Facts about Slavery in America - end of article.

FACT #49: The Constitution was written by and for "**We the people**" and dedicated to "**ourselves and our posterity**." All of the 55 delegates that met in Philadelphia to draft the Constitution and all of the members of the 13 state conventions that ratified it were of the White race. (38)

Webster's Dictionary Of 1828 defines Posterity as: **Posterity.** 1. Descendants; children, children's children, etc. indefinitely; the race that proceeds from a progenitor. 2. In a general sense, succeeding generations; opposed to ancestors.

FACT #50: The 14th Amendment is invalid for the following reasons:

It was never ratified by three-fourth of all the States in the Union according to Article 5 of the U.S. Constitution. Out of 37 States, 16 had rejected it.

Many of the States who were counted as ratifying it, were compelled to do so under duress of military occupation. Any legal act entered into under force duress, and coercion is automatically null and void.

The fact that 23 Senators had been unlawfully excluded from the U.S. Senate, shows that the Joint Resolution proposing the Amendment was not submitted to or adopted by a constitutional Congress.

The intent of the 14th Amendment is repugnant to the original U.S. Constitution and the Organic Law of the land. It did not, and could not, repeal anything that was part of the Organic Law. Therefore the principles of precedent and state decisions render it void. (23)

FACT #51: In **Abraham Lincoln's Emancipation Proclamation** of September 1862 he said: "I have urged the colonization of the Negroes, (back to Africa), and I shall continue. My Emancipation Proclamation was linked with this plan (of colonization). There is no room for two distinct races of White men in America, much less for two distinct races of Whites and Blacks. I can think of no greater calamity than the assimilation of the Negro into our social and political life as our equal. Within twenty years we can peacefully colonize the Negro... under conditions in which he can rise to the full measure of manhood. This he can never do here. We can never attain the ideal union our fathers dreamed, with millions of an alien, inferior race among us, whose assimilation is neither possible nor desirable." (27)

FACT #52: Lincoln actually proposed an amendment to the constitution that would've authorized congress to recolonize all freed Blacks back to Africa. On 15 August 1962, Congress did appropriate over half a million dollars for that purpose. Thousands of Negroes had been shipped back when Lincoln was shot. (27)

Washington, D.C.

FACT #53: The District of Columbia, which is approximately 70% Black, leads the U.S. in many areas:

The nations highest crime rates
Stricest gun control
Highest incarceration rates
Highest birthrate
Highest death rate
Highest rate of federal assistance *per capita*
Highest number of welfare recipients *per capita*
Highest rate of illegitimacy
Highest high school dropout rate even though its teachers are the highest paid in the U.S.
Highest rate of gonorrhea and syphilis
Highest incidence of AIDS (33) (32)

Portugal

FACT #54: Populated by White stock, the nation

of Portugal rose in four centuries to be the wealthiest most powerful country in the world. A great commercial and maritime power, it had large colonies in Asia, Africa, and America. Its seamen were the first to explore western Africa and they brought back hundreds of Negro slaves. By 1550, at the height of Portugal's power, one-tenth of its population were Blacks. Today, Portugal's population is described as one of the most homogeneous in Europe, having slowly absorbed the Negro gene pool. As of 1975 it had lost all of its outside territories. Its workers are the lowest paid in Europe and they have the highest rate of illiteracy and a high infant mortality rate. In terms of art, literature, music, science and philosophy the "new" Portugal has produced virtually nothing in 100 years and by most standards is the most backward nation in Europe. Keep in mind that the Black population of the U.S. is approximately 13%. (27)

Haiti

FACT #55: The Republic of Haiti, the only completely Black republic in the Western Hemisphere also happens to be the poorest country in the Western Hemisphere. It also has the lowest life expectancy, highest illiteracy, lowest *per capita* consumption of newsprint, lowest per capita GNP, and the lowest level of political stability. (27)

FACT #56: Haiti once had a promising future. Before 1789 as a French colony under White rule, San Domingo (Haiti) was as rich or richer in productivity as all the 13 American Colonies combined. It was considered the "crown jewel" of the French colonial system, and was in fact the most prosperous colony anywhere in the world. Populated by 40,000 Whites, 27,000 freed Mulattoes, and 450,000 Black slaves and with a bountiful climate and productive soil, it supplied all of France and half of Europe with sugar, coffee, and cotton. But in 1791, the French government issued a decree ordering Haiti to give the vote to the Mulattoes, and soon after another ordering freedom for all the slaves. This resulted in a bloody civil war in which the entire White population (about 40,000 Frenchmen) was murdered, down to the last man, woman, and child. Rape, decapitation, and mutilation were committed almost universally upon their bodies. (22) (23)

FACT #57: After the Blacks massacred the last of the White population in 1804, Haiti remained a part of Santa Domingo, until 1844 when it became a separate "republic." Between 1844-and-1915 only one Haitian president completed his term in office. Fourteen were ousted by armed uprisings, one was blown up, one was poisoned and another was hacked to pieces by a mob. Between 1908-and-1915 the revolutions and assassinations increased so rapidly that a United States military occupation was needed to restore order. This lasted from 1915-to-1934. Thereafter followed twelve years of rule by a Mulatto elite which ended in the resumption of control by the Black military in 1946. Since then wholesale corruption and political murder have been the rule. (23)

India

FACT #58: India's Negroid peoples have been subjected to numerous White invasions for over 5000 years, prompting the rise and fall of one civilization after another as the White invaders became absorbed into the non-White masses. Then, about 1800 B.C. Aryans again invaded from the northwest, this time establishing a rigid caste ("varna." meaning color) system of White

supremacy which eventually evolved into an integral part of the Hindu religion. Interracial mixing was banned and punishable by death. (5) (37)

FACT #59: Led by an Aryan ruling class, Classical India blossomed into a great culture, giving expression to philosophy, poetry, science, mathematics, and literature. The land prospered as never before - or after.

FACT #60: The caste system lasted about 2000 years (probably longer than any civilization under similar racial circumstances). However, eventually the castes broke down due to miscegenation and by modern times virtually no pure Whites were remaining. (39) (37) (10)

FACT #61: Today, India has 834 million people who speak 150 different languages and dialects. When the annual rainfall is insufficient, they die of starvation at a rate of 2,000,000-to-6,000,000 *per* year. India has the highest birthrate in Asia, one of the lowest per capita incomes in the world, and an illiteracy rate close to 70%. (35) (33)

Egypt

FACT #62: Ancient Egypt was founded and built by Mediterranean Caucasians as far back as 4500 B.C. Egypt's period of greatness was from 3400-to-1800 B.C. and was characterized by its amazing architecture, pyramids, temples, and mastery of mathematics and engineering, the remnants of which are still evident today. The White Egyptians pioneered medicine, chemistry, astronomy, and law; In many cases, their achievements remain unequalled. (37) (39) (21)

FACT #63: But, about 3400 B.C. Egypt civilization began to spread up the Nile River, bringing it in close contact with the black Nubians to the south. Soon they were using Blacks for slave labor and Egypt became history's first melting pot. (39) (10) (14)

FACT # 64: In time the infusion of Negro blood worked itself up from the bottom of Egyptian society. The slaves were eventually freed, received political equality, and took posts of authority in government. (10) (37)

FACT #65: By the time of **King Tut** (1370-1352 B.C.) even the ruling classes had been mongrelized and Egypt began a tailspin downward. Today, the once-mighty Egypt is very much a Third World country, having lost its art, its medicine, its architectural ability, and its position in world affairs. (10) (37)

The absurd notion that Ancient Egypt was a product of Negro ingenuity is now being widely disseminated in the schools. Though scholars know this is a blatant lie, they justify the deception by assuming it will boost the "self-esteem" of Black children.

South Africa

(Note: These facts will most likely change drastically now that South Africa has fallen under black rule.)

FACT #66: White people have lived in South Africa much longer than Negroes. There have been White settlements in South Africa for over 300 years, about the same length of time Europeans have lived in North America. Even 150 years after the first colonies around Capetown, at the beginning of the 19th Century, there still were no Blacks within

500 miles. The Blacks wandered in from central Africa later on, possibly fleeing the slave trade or due to famine. In fact, most of South Africa's Blacks were born in other countries. (29) (8) (14)

FACT #67: South Africa is by far the wealthiest and most advanced country in Africa, producing nearly 75% of the continent's Gross National Product. It is almost completely self-sufficient so boycotts have little affect upon its economy. In fact most of Africa is dependent upon South Africa. South Africa is governed by a Western parliamentary republic and strictly segregated racially. South Africa grants complete self-government to the Blacks in their own areas of the country. (29) (8) (14)

FACT #68: Though South Africa is perpetually criticized by the world press for its racial separatism, its Blacks live better than the Blacks of any other African country and are multiplying rapidly and healthily. 87% of Black welfare costs are being paid by the White man. This includes food, clothing, training, housing, education an health care. --even old age pensions. (14)

FACT #69: Thousands of South African Blacks graduate from college every year, more than three times as many as in the rest of Africa combined. Every Black child is within walking distance of a primary school. Africa's largest hospital, which serves Blacks almost exclusively and performs over 1800 operations per month, is in South Africa. (14)

FACT #70: The Blacks of South Africa own more cars than do all the citizens of the Soviet Union. (29)

FACT #71: South Africa has more Black doctors, lawyers, professional people, and millionaires than all of the rest of the world combined. (8)

FACT #72: In fact, conditions are "so bad" for Blacks in South Africa that the country has a tremendous problem with illegal Black immigration, having over one million illegal foreign workers. (14) (29)

Iceland

FACT #73-75: Iceland, the only all-White nation in the world, has the world's highest literacy rate - 100%. It is an island of cooled volcanic magma, located just south of the Arctic Circle. It has no coal, no fuel, no timber, no mineral wealth or natural resources, and no navigable rivers. 75% of the interior is uninhabitable and only about 1% of the land is arable. It is the youngest nation in Europe and one of the most isolated countries in the world. Nonetheless, Iceland is #2 in the world in life expectancy and has one of the world's highest standards of living, in terms of *per capita* income. It has tremendous medical facilities and a thriving publishing business. Virtually every family has a telephone. Upon graduation from high school, each Icelandic student has learned five languages. (33)

Martin Luther King

FACT #75-77: On 31 January 1977, Martin Luther King's FBI records were sealed by court order until the year 2027 because, as his wife said, "its release would destroy his reputation" These records are rumored to contain instances of bizarre sexual perversion and homosexuality, and proof that

King was under the direct orders of Soviet spies and financed by the Communist Party.

FACT #78: The Wall Street Journal (9 November 1990) disclosed that Stanford University editors of The Papers of Martin Luther King Jr. have long known that King was guilty of plagiarism in his 1955 Boston University doctoral thesis, having lifted significant portions from the works of other writers and graduate students.

FACT #79: Martin Luther King frequently enjoyed prostitutes and paid for them with his church's money. Still, congress has voted to make King's birthday a national holiday, in most places replacing Columbus Day or Washington's Birthday as an official observance.

FACT #80: Almost every state in the union has a King holiday, and almost every city has a King Boulevard or King Civic Center. Yet the electoral evidence suggests that Americans will almost always vote down honors for King when given a chance. (41)

Miscellaneous

FACT #81: The entire continent of Africa, perhaps Earth's richest land, accounts for only 3% of world trade. (27)

FACT #82-84: Almost all Blacks who have been leaders in fields other than athletics or music have had some White ancestry: Fredrick Douglas, W.E.B. Dubois, Booker T. Washington, George Washington Carver, Alex Hailey, Thurgood Marshall, Bryant Gumbell, Colin Powell, Carl Rowan, Ed Bradley, Doug Wilder, etc. According to Dr. E.B. Reuter."

Of successful and best known men that the Negro race has produced, at least thirteen-fourteenths are men of mixed blood. (27) (21)

FACT #85: Blacks are 50 times more likely to have syphilis than Whites. (32)

FACT #86: Twice as many Blacks as Whites receive dishonorable discharge from the U.S. military. (32)

FACT #87: A White woman is 15 times more likely to contract AIDS by engaging in sex with a Negro than with a White heterosexual. (U.S. Centers for Disease Control)

FACT #88: 90% of U.S. children with AIDS are Black or Hispanic. (36)

FACT # 89-92: In 1950, American schools were among the best in the world. However, vocal elements within our society demanded that the public schools take on a social engineering role as well as an educational one. Violent disruptions of American education were ordered by the Supreme Court for the purpose of breaking down racial barriers. For 30 years, American schools have diverted enormous resources into forced integration, quotas, and bussing operations. (Few people realize how expensive bussing is. Annual cost may run into tens of billions of dollars. In 1990 California alone was spending \$500 million *per* year on integration. Many school districts spend a quarter or more of their budgets on transportation. In Milwaukee alone and in a single school year, 30,000 staff hours were diverted into calculating the race of students to attend the various schools.) The results? Today's students rank at the very bottom worldwide in science and math, some 40% of American adults are functionally illiterate, and standardized test scores

have declined steadily for both Whites and Blacks. Today the average White still scores 200 points higher on the combined SAT than the average Black. Americans spend more on education than any other country in the world and have the worst results. Massive White flight to escape racial zoning has reduced the tax base of every major American city. In 1983, after nearly two generations of racial experimentation to promote equality, the research arm of the Dept. of Education could not produce a single study that showed Black children were learning appreciably better after desegregation. (25) (20) (32)

FACT #93: In Black Africa the average ruler lasts 7 months. (22) (27) (7)

FACT #94: By 1995, a third of U.S. students will be non-Whites and Whites will be a minority in the school districts of 5 states. (32)

FACT #95: Dr. William Shockley, Nobel prize winner for his work in the invention of the transistor and renowned geneticist at Stanford University, said, "The major cause for American Negroes' hereditary is origin and thus not remedial to a major degree by improvement in environment."

FACT #96: In 1930, about 33% of the world was White. Today, the U.N. estimates that only about 9.5% of the world's population is Caucasian. This percentage is falling rapidly. (34) (27)

See Note: Facts about White Genocide - *end of article.*

FACT #97: Every race has an equal capacity to learn and contribute to civilization and any differences are caused by prejudice and racism. The fact that white skins are associated with civilization is merely a quirk of fortune and coincidence. Any attempt to distinguish the races is motivated by paranoia and hatred. We must prevent any investigation into the subject and work to melt society together into a raceless, nationless, harmonious utopia. (?)

FACT #98: In 1988 there were 9406 cases of Black-on-White rape and fewer than 10 cases of White on Black rape in the U.S. (32)

FACT #99: For the book *Intelligence and National Achievement*, by Raymond Cattell, three distinguished American scholars compare massive evidence of national I.Q. score averages worldwide and warn against the decline of any nation whose population reflects declining intelligence. Taking into consideration the differential birthrates of American ethnic stocks, they concluded that American ability is declining rapidly. (21)

FACT #100: The American taxpayers have spent over \$2.5 TRILLION trying to upgrade Blacks since the 1960's. (6)

FACT #101: Quotes: "The Negroes' rude ignorance has never invented any effectual weapons of defense or destruction: they appear incapable of forming any extensive plans of government or conquest: and the obvious inferiority of their mental faculties has been discovered and abused by the nations of the temperate zone." - Edward Gibbon, the great historian and author of *The Decline and Fall of the Roman Empire*, (V.III, pg. 277) "Wherever you find the Negro everything is going down around him, and wherever you find the White man you see everything around him improving." - Robert E. Lee, to Col. Thomas H. Carter, May, 1965

NOTE

5 Hidden Facts about Slavery in America

It is a simple fact of the anti-White establishment that the Trans-Atlantic slave trade is known to all, but knowledge of the Muslim slave-trade in Europeans is deliberately suppressed.

Europeans are continually "blamed" for African slavery (even though only a tiny minority were ever involved in it, and it was Europeans who brought it to an end), but no-one ever dares "blame" the Muslim world for their slave trade in Africans and Europeans, which lasted for centuries longer than the Atlantic slave trade.

It was during the 1600s that Barbary corsairs - pirates from the Barbary Coast of North Africa (today Algeria, Libya and Morocco) - were at their most active and terrible. With the full support of the Moorish rulers of North Africa, these Muslim slavers raided southern Europe, the Atlantic European coast, Britain and Ireland almost at will.

The first official slave owner in colonial America was a Black man, not White; the Arab slave trade in Negroes was far greater and much longer lasting than the transatlantic slave trade; the founder of the southern state of Georgia banned both slavery and Africans from the state; large numbers of "free Blacks" owned Black slaves; and less than 5% of pre-Civil War American families actually had slaves.

These are some of the facts about slavery in America which are deliberately hidden from establishment histories of slavery in America, which are all designed to blame white Americans for "racism" and "slavery" and induce a completely false sense of guilt among whites.

Fact 1: The first official slave owner in America was an Angolan who adopted the European name of **Anthony Johnson**. He was sold to slave traders in 1621 by an enemy tribe in his native Africa, and was registered as "Antonio, a Negro" in the official records of the Colony of Virginia. He went to work for a white farmer as an indentured servant.

Prior to 1654, all Africans in the thirteen colonies were held in indentured servitude and were released after a contracted period with many of the indentured receiving land and equipment after their contracts for work expired. Johnson would later take ownership of a large plot of farmland after the expiration of his contract and, using the skills he had learned during his indentured labor service, Johnson became moderately successful.

By July 1651 Johnson had five indentured servants of his own. In 1664, he brought a case before Virginia courts in which he contested a suit launched by one of his indentured servants, a Negro who adopted the name of **John Casor**. Johnson won the suit and retained Casor as his servant for life, who thus became the first official and true slave in America.

Thus the accusation that whites "started slavery" in America is utterly untrue: Blacks in Africa sold each other as slaves, and the first true lifelong slave in America was owned by a black man, not a white.

Fact 2: The transatlantic slave trade was dwarfed by the Arab or Muslim slave trade, which lasted from 650 AD to 1900 AD. It is estimated that a

minimum of 18 million Africans were enslaved by Arab slave traders, and that over one million Europeans were enslaved by the Muslim world during the same period.

The Muslim slave trade saw Africans exported to regions throughout the Middle East and even to India, while the Europeans were captured in raids in Spain, Italy, France, Britain, and Ireland. These raids were launched from North Africa, and during the Islamic occupation of Iberia and southern Italy, from the latter regions as well.

The invasion of southeastern Europe by the Ottoman Turks saw even more Europeans enslaved into the Muslim world - but their numbers are unknown.

The Muslim trade in slaves, both Black and White, was therefore longer lasting and far more extensive than the transatlantic slave trade - but there are today no cries of "Arab guilt" or demands for reparations against Muslim nations.

Fact 3: James Oglethorpe (1696–1785) was a British general who founded the colony of Georgia in 1732. From the very beginning, Oglethorpe ensured that slavery was banned in the colony, and that Africans were barred from entering the territory.

The colony's founding charter also forbid Roman Catholicism from being established in the region.

It was only in 1750, after Oglethorpe had left the colony, that the ban on slavery was lifted.

Fact 4: Many free Negroes owned black slaves; in fact, in numbers disproportionate to their representation in society at large. In 1830, a fourth of the free Negro slave masters in South Carolina owned 10 or more slaves; eight owning 30 or more.

According to federal census reports, on 1 June 1860 there were nearly 4.5 million Negroes in the United States, with fewer than four million of them living in the southern slaveholding states.

Of the blacks residing in the South, 261,988 were not slaves. Of this number, 10,689 lived in New Orleans. Black Duke University professor John Hope Franklin recorded that in New Orleans over 3000 free Negroes owned slaves, or 28% of the free Negroes in that city.

In 1860 there were at least six Negroes in Louisiana who owned 65 or more slaves. The largest number, 152 slaves, were owned by the widow **C. Richards** and her son **P.C. Richards**, who owned a large sugar cane plantation.

Another Negro slave magnate in Louisiana, with over 100 slaves, was **Antoine Dubuclet**, a sugar planter whose estate was valued at (in 1860 dollars) \$264,000.

In Charleston, South Carolina in 1860, 125 free Negroes owned slaves; six of them owning 10 or more. Of the \$1.5 million in taxable property owned by free Negroes in Charleston, more than \$300,000 represented slave holdings. In North Carolina 69 free Negroes were slave owners.

(Source: *Black Masters: A Free Family of Color in the Old South*, Michael P. Johnson and James L. Roak New York: Norton, 1984.)

Fact 5: In 1860 only a small minority of Whites owned slaves. According to the U.S. census report for that last year before the Civil War, there were nearly 27 million Whites in the country. Some eight million of them lived in the slaveholding states.

The census also determined that there were fewer than 385,000 individuals who owned slaves. Even if all slaveholders had been White, that would amount to only 1.4% of Whites in the country (or 4.8% of southern Whites owning one or more slaves).

The figures show conclusively that, when free, Blacks disproportionately became slave masters in pre-Civil War America. The statistics outlined above show that about 28% of free Blacks owned slaves - as opposed to less than 4.8% of southern Whites, and dramatically more than the 1.4% of all White Americans who owned slaves.

Miscegenation: The Morality of Death

Dr. William L. Pierce

HISTORY HAS TAUGHT us that the most fundamental necessities for the existence of a healthy and progressive White society are the racial quality of its members and a moral code or value system which complements and enhances that quality.

Ultimately, *of course*, the former is much more fundamental than the latter. Only a sound race can give birth to sound racial ethics. Without the living biological entity, there is and can be nothing. But as long as the race survives - as long as the potential for effective racial sovereignty exists - alien and spiritually damaging values alone will not prove fatal.

The enemies of our race have obviously long understood this truth. That is why, a half-century ago, they waged the most vicious war the world has ever seen in order to destroy an idea based upon that racial truth. That is why they subsequently organized the systematic swamping of White civilization by millions of alien immigrants. And that is why they have used their control of the news and entertainment media, of the government, and of schools and universities to implement a massive propaganda campaign to encourage miscegenation between Whites and non-Whites.

Of course, miscegenation is not a natural occurrence. Evolution would have been impossible if every evolutionary experiment had been short-circuited by cross-breeding. Nature's urge toward higher and more complex life forms has demanded that subspecies remain genetically isolated until all possibility of genetic admixture has been removed. Even though such isolation of the various human subspecies from one another has not been of sufficient length to ensure the impossibility of genetic admixture, it has ensured the existence of deep-seated psychological barriers which, under natural conditions, prevent miscegenation.

When these natural conditions are disrupted and distorted, *however*, unnatural sexual activities such as homosexuality and miscegenation have been known to result. Just as bulls have been known to mount mares, and St-Bernard dogs have tried to mate with Chihuahuas when forced into close confinement and deprived of their natural environment, so Whites have copulated with Negroes in similar circumstances. It is the disruption of the White man's natural environment and the dehumanization of his society and culture, therefore, which the Jews and their collaborators in the news and entertainment media have consistently worked for in order to encourage racial mixing.

This campaign began at least as early as 1967, when 16 U.S. states still had laws against miscegenation. In that year Jewish director/producer Stanley Kramer brought out the film *Guess Who's Coming to Dinner*, starring [race-traitors] Katherine Hepburn and Spencer Tracy as a couple whose daughter begins an affair with a Negro. The aim of the film was clear and since has been admitted. It was designed as an "educational film" for White Americans: after seeing their on-screen heroes, Tracy and Hepburn, surrendering their White daughter to a Black male, they would feel less compunction in doing the same. [1]

Since that time Whites have not just been encouraged to mate with Blacks, Hispanics, and Asians, they have been subject to every conceivable Pavlovian method to blackmail and bully them emotionally into doing so. With ever increasing intensity the message has been that miscegenation is not just an option, but the option that society expects. Particularly, the

primary aim of the Political Correctness movement, in all of its manifestations, has been to confuse heterosexual Whites and make them feel sinful and guilty for being White; to encourage them to "repent" by helping put their race out of existence.

The Hollywood film *The Last of the Mohicans*, which came out in 1992 with the Jewish actor Daniel Day-Lewis in the leading role, is a typical example of how the Jewish news and entertainment media have spearheaded this campaign. In the film White males are portrayed as weak, cowardly, disloyal, and barbaric - and as justly deserving of their slaughter at the hands of the noble, dignified, courageous, and sexy Red Indians. Yes, just to ensure that White women don't miss the implication that White men are worthless, the leading White female character dumps her despicable British-officer fiancé and runs off into the sunset with the Mohican hero. The underlying message of the film is clear: race-mixing is not only natural and understandable, it is also the morally right thing to do.

Zoologists and anthropologists have identified two types of feral constraint which ensure that under natural conditions animal groups - including human groups - which may be able to interbreed with each other refrain from doing so. On one hand, there are inborn biological impulses based upon physical "sign stimuli," such as smell, color, and visual differentiation. Then there is the behavioral imprinting and habituation which takes place in the early weeks and months of infancy based upon the intimate relationship between the mother and the infant. This helps to ensure that when sexual mating is eventually attempted, it will take place only with those forms that resemble the parent or siblings. [2]

Not surprisingly, the Jews have gone all out to corrupt and cripple the latter tendency in Whites, particularly under the guise of "children's entertainment." In 1994, for example, the Walt Disney Company brought out a re-adaptation of its 1967 film **The Jungle Book**. This was Disney's first children's offering since being taken over by the Jewish clique headed by ☆ **Michael Eisner**, and, predictably, it was a complete distortion, both of the original Kipling story and the 1967 Disney animated version. With a story line remarkably similar to **Last of the Mohicans**, the White heroine rejects her British-officer fiancé for an Indian jungle boy played by a Chinese actor.

Significantly, the White girl's decision is portrayed as being based upon moral considerations of right and wrong, upon her realization that White society and White men in particular are irredeemably bad. Eisner pursued this line in the two subsequent Disney animated children's films, *Pocahontas* and *The Hunchback of Notre Dame*, which are similar both in their pernicious race-mixing propaganda and in their blatant disregard for the original stories. Such systematic consistency in shape and content suggests design rather than coincidence.

In any case, the actual motivation of ☆ Michael Eisner in churning out such material is not the most important question. The thing that really matters is the actual effect of his efforts: young children are being influenced, at an age where they are most open to behavioral imprinting, with a message that miscegenation is good and morally correct, and that Whiteness is evil and morally wrong.

Just as young Whites in the past were encouraged by an alien religious dogma to feel sinful because of their natural sexual urges, to feel unclean in having them, and to seek "salvation" by denying them, so today they are indoctrinated with guilt-inducing ideas about being White. And the solution which they are offered to overcome these artificial feelings of guilt and self-hate is increasingly clear: mate with a non-White partner and have mongrel offspring. Racial suicide is thus insidiously presented to them as the only way in which they can overcome their Whiteness and all the consequent pain and shame that goes with it.

Actually, **miscegenation** has rapidly emerged as the official religion of the New World Order and its adherents. Propagated with an increasingly hysterical fervor, it has been developed as the new universal

slave-morality which embraces and transcends established religions such as Christianity. In March 1994, *for example*, evangelist **Billy Graham's** publication *Christianity Today* urged readers to rejoice over the existence of mixed-race marriages and mixed-race children and to do everything possible to make them fully accepted into society. It even stated that this is one area where the news and entertainment media are morally ahead of the churches.

This propagation of miscegenation as an ideological crusade also has made significant inroads into the education system. When a North Carolina middle school principal recently cautioned a White female student and a Black male student about the dangers of interracial dating, he was immediately suspended from his job and disciplined. He was not allowed to return to work until he had been "reeducated" after confessing and repenting his "sins" in a counseling and sensitivity training program. [3]

The ideological nature of this campaign to promote miscegenation was also reflected in an article in the August 1996 issue of Maryland Family Magazine, part of the Times Mirror group. Written by Helen Armiger, described as a candidate for ordained ministry in the United Methodist Church, "*How to Raise an Unbiased Child*" argues that society is compelled to teach its youth to live harmoniously and productively within a global environment. Quoting approvingly a Maryland education official, Armiger insisted that there exists a moral obligation to provide children with the opportunity to engage in a variety of relationships with people of different races and sexual orientations without any kind of parental or social constraint.

Behind the high-sounding slogans portraying miscegenation as morally imperative and beneficial, the motivation of its proponents is clear: the intention is not to "save" or "redeem" Whites, but to destroy them completely. What such "morality" really derives from is a totally subjective, alien mind-set which seeks the biological extinction of the White race, and which, from its own perspective, sees such an extinction as a good and righteous thing. Some of its proponents are much more honest than others in admitting to this reality. One journal, *Race Traitor*, edited by Noel Ignatiev and subtitled "*Treason to Whiteness is Loyalty to Humanity*," openly declares its conviction that the only way to solve the social problems of the age is to abolish the White race. Its admitted aim is not "multiculturalism" or "multiracialism," but biological unity and racelessness. [4]

Such thinking is not confined to the political fringes. On 29 September 1996, The New York Times Magazine ran an article by Jewish writer Stanley Crouch (author of the book *The All-American Skin Game: Or, the Decoy of Race*). Entitled "*Race is Over*," Crouch's article confidently predicted that a century from today unprecedented levels of racial mixing - of a wide variety of combinations - will ensure that the very concept of race will be redundant. Americans of the future, it argues, will find themselves surrounded in every direction by people who are part Asian, part Latin, part European, part American Indian. The sweep of body types, combinations of facial features, hair textures, eye colors, and what are now "unexpected skin tones" will, in Crouch's view, be far more common because the current paranoia over mixed marriages should be by then largely a superstition of the past.

Even this declared goal, *however*, reveals only part of the agenda, because one particular race has an exemption ticket from this universal morality of genetic amalgamation. But The New York Times Magazine article symbolizes what the Politically Correct movement is really all about. When the mainstream Harper's Magazine runs articles advocating government-sponsored summer camps for young White girls to meet and begin relationships with non-White males, it is not doing "good" for those girls; it is actively encouraging what is most definitely bad for them. And when the Prudential Insurance Company of America sponsors a series of racial unity conferences for children across America and the world, it is not

doing what is "right" for those children; it is doing what is totally and utterly wrong for them.

Actually, such "morality" is without any moral foundation whatsoever. It's not based on any natural or biological law, nor does it follow any rational or scientific line of reasoning. This helps to explain why it is having some difficulty in achieving its objectives. Undoubtedly many Whites preach the cause of miscegenation, and many have put it into practice. But, revealingly, the numbers in the latter camp are still much smaller than in the former.

Some of the Whites who advocate race-mixing are obviously unhealthy in a genetic sense, and mentally ill as opposed to spiritually sick. The person who wrote to his local newspaper recently stating his frustrated wish to have 5% Black blood in his ancestry so as to blend in with what he considers the ideal American racial composition, may be an example. [5]

In any case, in instances such as these miscegenation could even be considered a tool of natural selection in weeding such people out of the White gene pool.

For the majority of Whites who advocate miscegenation, *however*, their sense of righteousness in espousing it is nothing more than a manifestation of trendiness: of wanting to feel and appear fashionable.

Take, *for example*, the case of the young Hollywood couple Tom Cruise and Nicole Kidman. Both appear to be healthy and physically attractive specimens of Aryan humanity. Yet they have recently adopted a Black child and actively collaborated with the Jewish media in publicizing it as a fine and noble deed which has helped the cause of human and societal "progress." There is nothing biologically wrong with this couple; they've just gone out of their way to make a fashion statement. And the adopted child is nothing more than a fashion accessory for their symbolic commitment to the idea of miscegenation.

Indeed, it is revealing that for all their fashion consciousness, Cruise and Kidman chose to marry each other rather than non-Whites: they chose to adopt a non-White child rather than to create one. Even they, *therefore*, whether conscious of it or not, are evidence that most Whites are not yet putting the idea of miscegenation into practice - regardless of the lip service which they might feel compelled to give it.

A recent study of miscegenation statistics by Jewish academic ☆ Douglas J. Besharov, resident scholar at the American Enterprise Institute, seemed to give some credence to this view, although the report highlighted some very disturbing trends. These included a tripling of marriages between Whites and Blacks since 1970, and a sharp increase in marriages between Whites and Asians or Hispanics. The U.S. Census Bureau counted about 150,000 interracial marriages nationwide in 1960. By 1990 that number grew tenfold to 1.5 million. In 1994 it was estimated at more than 3 million.

Equally alarming was the statistic that 35.4% of White women married to Black men said they planned to have children, a higher proportion than the 29% of White women married to White men who said they wanted children. This is on top of a four-fold increase in mixed-race births since 1970, although not all of these involved a White parent.

Such trends are obviously ominous and potentially catastrophic by pointing in the long term to the biological extinction of White America. In the short term, *however*, from the perspective of those of us trying to prevent such a nightmare from unfolding, they do provide at least some grounds for optimism and opportunity. Despite 30 years of Judeo-Christian brainwashing, over 90% of Whites are declining to transgress what Douglas J. Besharov admits is American society's "last taboo."

Similarly, despite the efforts of Senator Howard Metzenbaum (D-OH, now retired), who in 1994 introduced the **Multiethnic Placement Act** in the Senate in an effort to bring about an increase in transracial adoptions, most Whites appear still to prefer to adopt White babies, and most non-Whites still prefer to adopt non-White babies. Such attitudes, *moreover*, appear to be hardening in spite of the [Bill] Clinton administration's attempts to legislate against them.

The Cruise-Kidman adoption, *for instance*, was condemned by the National Association of Black Social Workers on the grounds that transracial adoptions amounted to racial and cultural genocide.

Undoubtedly an important factor in this situation has been the growth in tensions that has accompanied the transition to a multiracial society. As racial and ethnic identification has become more relevant in people's lives, the resulting racial polarization and intensified group solidarity have mitigated somewhat against the idea of interracial mating. It seems clear, for example, that the **O.J. Simpson** trial served the useful purpose of intensifying both White and Black racial consciousness and of discrediting the idea of miscegenation.

One hopeful sign of this was the fact that **Hulond Humphries**, a White high school principal in Wedowee, Alabama, who was ousted from his position in 1994 for threatening to cancel the spring prom if interracial couples turned up, recently won an election runoff for superintendent of schools.

As with the race question in general, many Whites - for the moment at least - seem to be carrying around with them two conflicting value systems in relation to race-mixing: the one they publicly purport to hold and the one they actually live their private lives by. While the former is artificially created and only maintained by continuous external conditioning, the latter arises from instinct, which is genetically ingrained.

Thus, although race-mixing propaganda may have been purposefully designed to appeal to the subconscious and to avoid encountering rational faculties, it has inevitably come up against subconscious genetic realities which are not easily influenced by alien attempts at behavioral modification. Consequently, while it has been relatively easy to bring about widescale spiritual sickness and confusion, it has been much more difficult to implement widescale biological amalgamation.

Such a situation, *however*, will not last forever. History is full of examples of artificial and destructive moralities triumphing over the natural order. Despite its setbacks, the *cult of miscegenation* has spread substantially over the last thirty years and will continue to do so. Current trends continue to point to the most fundamental and inescapable reality which confronts us today: the White race stands on the precipice of biological extinction.

And one thing is certain: as the strains and tensions of this multiracial society increase in the coming years, so the campaign to destroy us through racial mixing will intensify. For this reason alone, regardless of increased racial polarization, the false morality of miscegenation will not disappear naturally. The circumstances of racial chaos will help us, but only organized and radical action on our part will achieve the vital necessity of a complete and decisive separation of the races and the final destruction of the morality of death.
